Prayer Wheels: An Antidote to Fear & Negativity

The largest prayer wheel in Old Tibet once held 100,000,000 prayers, traditionally printed with hand-carved wood blocks. The “modern” Tibet-Tech Tibetan prayer wheels, created by Sakya Monastery of Tibetan Buddhism and Earth Sanctuary, dwarf that, containing 1,349,580,000,000 prayers in the form of Sanskrit mantras. As the prayer wheels are turned clockwise, Tibetan Buddhists believe that they radiate an incalculable amount of peace, kindness, and relief from misery for all beings.

The mission of the Tibet-Tech prayer wheels is to foster World Peace with each spin. Mindfully turning a prayer wheel with 1.3 trillion mantras (sacred prayers) produces the same benefits as having recited 1.3 trillion mantras. At one mantra recitation per second, it would take approximately 42,776 years to recite 1.3 trillion mantras. But with just one spin, a Tibet-Tech prayer wheel (at 100 revolutions per spin) releases 27,000 mantras for each of the five billion human beings on the planet. If placed end-to-end, these mantras would stretch from the Earth to the Moon and back 607,500 times!

The Tibet-Tech prayer wheels represent a new and powerful spiritual anecdote to war, suffering, and negativity. Individuals or groups can use them in indoor or outdoor locations. Mounting holes in the base enable the prayer wheel to be secured to a base or stand (optional - not included).

Benefits of Prayer Wheels

The practice of the prayer wheel has many “magical” benefits:

- Purify our body, speech and mind.
- Transform one’s home and property into a very peaceful, holy land or “high heavenly realm.”
- Sakyamuni Buddha said that turning a prayer wheel once is better than having done years of retreat, intensive spiritual practice. He said, “Turning the Dharma wheel is better than listening, reflecting and meditating for eons¹.”
- Use of the prayer wheel is one of the easiest ways to purify past negative karma, nonvirtuous actions, defilements, and obstacles that prevent us from realizing our true self and understanding the true nature of reality.
- Save all the beings in the area around prayer wheels from rebirth in the lower realms (e.g., animal incarnation).
- Accumulate extensive merit for oneself and all beings in the area.
- Prevent harm from spirits and negative beings..
- Heal sicknesses and protect people from contagious diseases and epidemics.
- Act as an antidote to war and fear in the world by radiating peace, kindness, and relief from suffering.

Tibet-Tech Prayer Wheel Construction Details

Prayer wheels were traditionally filled with mantras that were very carefully printed on paper and wound up inside the prayer wheel. The new Tibet-Tech prayer wheels are the first to use DVD optical disk storage technology to store the mantras.

The construction of these unique spiritual devices builds on traditional prayer wheel design techniques by incorporating modern computer technology. His Holiness Jigdal Dagchen Sakya (Dagchen Rinpoche) oversaw the proper design and construction of the prayer wheels. Dagchen Rinpoche is Head Lama of the Sakya sect and Sakya Monastery of Tibetan Buddhism (www.sakya.org) in Seattle. The Sakya leaders hold a position third only to His Holiness the Dalai Lama in rank.

The idea for these “high-tech” prayer wheels came from Chuck Pettis, Earth Sanctuary founder and Sakya Monastery President who explains in his own words, as follows, *“Dagchen Rinpoche and H.E. Dagmo Kusho Sakya recommended that I use prayer wheels in my daily meditation practice. They gave me two prayer wheels as gifts. One is electric and revolves continuously on my shrine. I hold the other prayer wheel in my hand and spin it while I do my daily mantras. When I started spinning the prayer wheels, my wife immediately noticed an increase in the spiritual feeling around our altar. One day, while meditating, the question arose in my*

mind, ‘How many mantras could be put in a prayer wheel?’ The result is the “Tibet-Tech” prayer wheel.”

Each Tibet-Tech prayer wheel is custom manufactured and assembled using both hand-formed and high-quality, high-tech components. Each prayer wheel is a work of art. In the center of the Tibet-Tech prayer wheel is a sandalwood life-tree obelisk painted with the three mantra syllables, *Om Ah Hum*, symbolizing the Body, Speech, and Mind of the Buddha. Stacked on and around this obelisk are the DVDs. The mantras were stored and compressed onto DVDs in PDF format that were then duplicated. Below and above the stack of DVDs are the Earth Wheel and Sky Wheel symbols, etched onto brass.

The prayers and mantras in each Tibet-Tech prayer wheel are blessed and consecrated by Dagchen Rinpoche. As long as the Universe exists, the consecrated mantras will remain potent.

Sets of the eight DVDs with the eight mantras are also available for sale for \$80, plus shipping.

Mantras in the Tibet-Tech Prayer Wheel

Each Tibet-Tech prayer wheel includes 16 DVDs of eight magical and powerful mantras (128 DVDs total). The mantras are stacked from the bottom up, starting with 16 DVDs of the A-li mantra; 16 DVDs of the Ka-li mantra, and so on up to the eighth mantra, the 100-syllable Vajrasattva mantra.
